The Alberta Medical association held its annual meeting in Calgary this week. No reduction of medical fees is to be made this time, according to reports of the meeting.

MILLINERY OPENING

Mrs. C. Easton, of Coleman, will show a complete line of Fall and Winter Millinery, beginning Friday, August 26th. —18-26-

BLAIRMORE IS COMPLETING BIG BUILDING PROGRAM

One of the busiest men in Blairmore these days is Contractor E. J. Pozzi, who has a large number of contracts under way, and on which he is rushing work with all possible speed.

He has a force of men at work this week finishing the public school building in stucco, which will add in the neighborhood of \$2,000.00 to the value of the buildings, as to durability, and which will add much more than this sum to the appearance of the buildings.

Another force of men is at work on the West Canadian Collieries' 4-suite apartment house which will be completed early in September.

This is one of the most attractive buildings in Blairmore and the interior arrangement is to be strictly first class and up-to-date in the way of construction and finishing.

The addition to the garage is well under way and will be ready for occupancy within a few weeks. This structure is 50x100 feet and is being constructed of red tiling. It will give Blairmore one of the most modern and commodious garages in southern Alberta and is a credit to The Pass.

Contractor Pozzi is also erecting an addition to the restaurant in the west townsite and this week started a crew of men at work on the block of cement sidewalk on Victoria street between 8th and 9th avenues. This will give a decidedly business-like appearance to Victoria street which will have a continuous cement walk along the business section, when this block is finished.

It is hoped to complete the work now under way before bad weather starts for the fall and Blairmore will go into the coming winter with a completed building program for the season second to none in southern Alberta.

The Knapman Plumbing and Heating company is doing the plumbing on the West Canadian Collieries' apartment block.

PALM CAFE OPEN

The Palm Cafe which is to open for business on Saturday of this week, will serve ice cream, home made candies, fruits and all kinds of refreshments, but will not be able to serve meals at present, owing to the kitchen not being completed.

LEASES ALBERTA HOTEL

F. J. Novotny, who with his brother conducts a meat market on Victoria street, has leased the Alberta hotel and will conduct it hereafter.

The inside of the building has been newly painted and improved in many ways and Mr. Novotny expects a greatly share of the local business. He intends making a specialty of permanent boarders, rather than to cater to the traveling public.

NEW JITNEY SERVICE FOR THE PASS TOWNS

That Blairmore and other towns of the Crows' Nest Pass may have better transportation service a new auto jitney line will be started about September 1st.

The service will continue for 18 hours out of 24, with regular trips every thirty minutes—between the towns of Coleman, Blairmore, Frank, Bellevue and Hillcrest. The jitney station in each town will be as follows: Coleman, Coleman Hotel; Blairmore, Cosmopolitan hotel; Frank, postoffice; Hillcrest, Cruikshank's store and the hotel.

The charges are to be very reasonable and the new service will greatly add to the convenience of travelers and local people whose business takes them to these various points outside of train hours.

PINKNEY-GAVELIN

A very quiet wedding took place at the home of the groom's parents, on Wednesday evening, the 17th instant, when Miss Elin H. Gavelin was united in marriage to Mr. R. W. Harold Pinkney, Rev. W. T. Young officiating. Later Mr. and Mrs. Pinkney left by motor for Banff and Lake Louise.

TAXPAYERS IN PROTEST MEETING

A fairly well attended meeting of Blairmore taxpayers was held in Union hall on Tuesday evening, August 16th, for the purpose of discussing what many believe inequalities of assessment in the town of Blairmore this year.

This meeting was the result of a former meeting held some time ago, in which a committee was appointed to look into the matter of assessments. Upon the findings of this committee the Tuesday evening meeting was called.

At the meeting held this week, the matter of assessment was discussed from every angle and the result of the deliberations was that a strong committee was appointed to meet with the councillors on Monday evening, August 22nd, for the purpose of coming to some final agreement upon the matter of taxation.

This committee is composed of Messrs. J. Davis, Charles Green, Pete Patterson, Jack McAndrews, and Ignatz Hucula. Mr. Hucula was appointed a special committee of one to make a special list of properties on which it is felt that the assessment is unfair. His report will be the basis of discussion at the meeting with the councillors on Monday evening.

On August 12, the amount of wheat in storage in Ft. William was 2,950,000 bushels; oats, 5,915,095.

CLEAN GROCERIES ARE ASSURED BY OUR SANITARY COUNTER

You are invited to inspect it.

It is not enough that our provisions are pure and unadulterated. Dirt, flies, animals or promiscuous handling may easily contaminate the purest food and make it unfit for eating. Let others do as they please, we are taking no chances. We have purchased a Sanitary Counter because we believe it gives absolute protection to the goods you buy at our store.

Following are a few of our prices. Come and see the others. We handle nothing but No. 1 goods and everything that goes out of our store is guaranteed to satisfy or money will be cheerfully refunded.

Apparagus, large 2 1/2 lb tins, only	60c
Fresh Green Apples, good eating or cooking, 3 lbs for	25c
Fresh Green Beans, 2 pounds for	25c
Sunkist Raisins, seeded or seedless, package, only	45c
Pink Salmon, 1/2 lb tins	15c
Citrate of Magnesia, large bottle	\$1.25
We still have on hand a few hundred pounds of Roast Coffee. While it lasts at 3 lb for	\$1.00

We are offering to our customers FIVE PER CENT DISCOUNT on all sales from now on.

MARK SARTORIS TO BUILD NEW BLOCK

Mark Sartoris, the well known Blaimore business man, is to start a new business block within a short time, on the corner of 9th Avenue and Victoria Street, on which a residence has been situated. This dwelling house has been moved back to face on 9th Ave. leaving the open space.

Mr. Sartoris will erect a large up-to-date brick building on this site which he will occupy himself as a store and sample rooms for his business.

It hasn't been so long ago that folks married for better or for worse. Now they wed for more or less, or something like that.

FRIDAY—

"Rich Girl, Poor Girl"

A Universal picture starring GLADYS WALTON

MONDAY & TUESDAY—

BLAIRMORE'S HISTORY

Blaimore's history did not begin thirty or forty years ago when white men first began to push through this mountain gorge, in their trekking to the west.

Nature shaped and fashioned this townsite, this river channel, these mountain ranges, millions of years ago. The history of Blaimore and its coal mining industry, of today was begun ages ago, when the prehistoric forests were submerged in some colossal upheaval of the globe. Under the seas of mud and slime, our coal began to take form.

And then through all the intervening ages, the laboratory of Nature has been pressing and vialing and charging these coal beds with heat units which we have discovered and named.

Our coal-heels and mineral veins were laid down for future use about the same old morning in which the Red Deer Dinosaur was tucked away in his bed of ooze to sleep for millions of years to be finally dug out of the solid rock hundreds of feet beneath the surface, just as we dig our coal.

It is a most fascinating story, and we who dig coal and sell coal and burn coal—just as we usually do not stop to think of its wonderful interest.

While it required millions of years for Nature to form the beds and fill them with heat and light and comfort for man, we dig it out casually and in weeks or months or a few years at most, exhaust mine after mine of the precious substance.

In this mineral country none of the science of minerals of their origin, formation or use could be beneficially taught in our schools.

Here in a coal mining district, these fascinating facts, which are not in our text books, could be used to intensify and brighten our educational system.

While the Liberals of Alberta have seven-thirtieths of the membership in the legislature, yet they have no representation in the cabinet. Thousands of sincere Liberals were swept off their feet by the alleged "reform" of the Farmer party but these would perhaps vote against the same U. F. A. candidates, were another election to be held this week. The "group government" advocated by the U. F. A. and U. G. G. evidently means that the largest group belongs the spoils, if not in words at least in practice.

Two cardinal sins in the political calendar, contrary to all the teachings and pre-election declarations, have been committed by the Farmer government, before it earned a seat in parliament. It held a secret, iron clad caucus from which it excluded the press and public, and it named for attorney-general an old party lawyer who has never advanced a reform idea in his life, and who was not in sympathy with the Farmer's movement until he was hired on salary by the U. G. G. some three years ago.

The injustice of politics is shown in the defeat of Mrs. L.C. McKinney in Claresholm, by a man who has not more than a passing interest in the Farmer's reform movement. Mrs. McKinney, as a non-partisan, blazed the way and bore the brunt of battle in the reform movement in Alberta, — yet when the great day of victory came, she was denied a seat.

Asia, with 900,000,000 people forms the greatest menace to the Anglo-Saxon races. These swarming millions are knocking at the doors of the white man's country. No wonder the English speaking peoples are alarmed at the aggression of Japan. The supreme struggle of the ages is to be between the white and yellow race for supremacy of the earth.

One of the most fascinating biographies ever written of modern personage is the intimate life of Queen Victoria by Lytton Strachey which has only recently been published. It is filled with intensely interesting facts and anecdotes never before given to the public.

MEN

In men whom men condemn as ill I find so much of goodness still, In men whom men pronounce divine I find so much of sin and blot I hesitate to draw a line Between the two, where God has not.

—Joaquin Miller.

The results of the great war will cost Canada, for the fiscal year 1921-22, the following stupendous sums: Interest on war debt, \$149,613,163.00, pensions \$31,816,923.00, land settlement \$35,017,000.00, re-establishment \$19,310,000.00, or a grand total of \$225,757,086.00.

FERNIE HELPS THE TOURING AUTOISTS

That it may be more pleasant for tourists who desire to see the Crow's Nest Pass automobile route through the Rocky mountains, the enterprising town of Fernie has established a large camping ground near its borders. Six separate plots or camping grounds have been set aside with separate dressings, kitchen conveniences, etc., each having tables, seats and other necessary features.

The surroundings are very beautiful and this enterprise on the part of Fernie will spread the popularity of this mountain route through British Columbia and our province.

FIRST CAR OF COAL SHIPPED ON MONDAY

The Blaimore Coal company shipped its first car of coal last Monday and will now be in position to make regular shipments.

A sidetrack 1900 feet in length connecting the main line with the mine was completed a few days ago and a force of about 10 men is now at work. As fast as possible the working force will be increased and the company is looking forward to a good business in the development of the property.

While Blaimore does not really need any fixing yet a fine rain the first of the week settled the dust, brightened up the gardens and cooled off the atmosphere just about right.

BLAIRMORE — ALBERTA

You Save Every Way—

Quality maintains economy. No matter how much you pay "per gallon" for other lubricating oils you get more lubrication "per dollar" when you buy Imperial Polarine Motor Oils.

MORE mileage from every gallon of fuel and quart of oil; uninterrupted service from your car; slower depreciation; fewer repair bills and no lubrication trouble, just about sums up the savings and satisfaction enjoyed by users of Imperial Polarine Motor Oils.

The uniform high quality of Imperial Polarine Motor Oils, wherever you buy them, insures you more miles of correct motor lubrication for your dollar than you can obtain in any other way. Quality does maintain economy.

Our Chart of Recommendations shows the grade of Imperial Polarine Oils required to correctly lubricate your car. Use this grade exclusively and you will get the years of service and satisfaction which you have a right to expect from your car.

Consult our Chart at your dealer's or write to 56 Church Street, Toronto, for a copy of "Automotive Lubrication," which contains the complete Chart and other useful information.

IMPERIAL OIL LIMITED

Branches in all Cities

FOR A CLEAN EFFICIENT MOTOR.

Not even Imperial Polarine Motor Oils will lubricate properly if mixed with dirt and grime. Your crank-case should be thoroughly cleaned every thousand miles or less. Dealers displaying the sign to the left will clean your crank-case in an expert and workman-like manner. Such dealers use Imperial Flashing Oil, the modern scientific cleaning agent. Employ crank-case service regularly and you will save hundreds of dollars every year.

CALGARY USES
ANCIENT PHONES

Because the supply of automatic telephones is exhausted and the Alberta government is unable to secure any at present, about 75 old manual phones have been installed in Calgary.

MARRIED WOMEN DISCHARGED

Six married women who have been employed as janitresses in Calgary public school buildings have been discharged, as a result of the campaign to do away with employment of married women who have husbands to support them. The women will be replaced with men, preferably by returned soldiers; if possible. The same movement is extending to other lines of employment in Calgary and it is possible that many leading employers will be prevailed upon to decline to hire married women.

The sum of \$100,000.00 is being expended this year on extensions and improvement to government telephone and telegraph lines in central British Columbia.

HAIL STORM SWEEPS
OVER LARGE CROP AREA

One of the most disastrous hail storms in the history of Alberta swept over an area averaging four miles wide and about 100 miles, or so in length, from Crossfield to Gleichen, the end of last week.

Thousands of acres of fairly good crops were entirely wiped out while the remainder suffered losses ranging from 20 to 70 per cent.

Cuthing started in several districts and would have been general in the north of the storm this week, so the storm destroyed the last vestige of hope of a crop in one of the best farming districts in central Alberta.

Storms of less magnitude have swept over the same territory in former years, but never has such a violent and wide spread devastation been known in that particular district before.

One thousand and eighty Asiatics, including Japanese, Chinese and Hindus, control 28,918 acres of rich farming lands in British Columbia, according to a survey made by the province recently.

FAREWELL PARTY
TO MRS. GOODEVE.

One of the most pleasant social events to take place in Coleman this season, was enjoyed last Monday evening, when the women of the Holy Ghost Catholic church of Coleman met at the home of Father McCormick, to bid farewell to Mrs. H. G. Goodeve, who has gone to Calgary to reside permanently.

Mrs. Goodeve has been one of the most active and willing workers in the church during her residence in Coleman and many regrets were expressed at her departure.

On behalf of the church and pastor, Mrs. J. A. McDonald read a touching farewell address, in which the keen appreciation of the members for Mrs. Goodeve's faithful services was feelingly expressed.

Father Murphy of St. Ann's Catholic church, of Blairmore was present and enlivened the occasion with one of his characteristic Irish addresses, replete with wit and humor. At the close of the evening's entertainment, Mrs. Goodeve was presented with a beautiful handbag in token of the esteem in which she is held in Coleman.

SINN FEIN REFUSE
TO ACCEPT TERMS

In Blairmore as elsewhere in the empire, great disappointment prevails over the refusal of De Valera and the Sinn Fein parliament to accept the peace proposals made by Lloyd George.

The general belief is that this action on the part of the De Valera forces, means the opening of the civil war in Ireland again.

MRS. PRICE DEAD

Mrs. James Price of Hillcrest, died Thursday morning after an illness of several weeks. She was 48 years of age and leaves her husband and three children to mourn her loss. Funeral services were held at Hillcrest, where interment took place.

C. P. R.'S LARGEST SHIP

The Empress of Scotland, the new C.P.R. ocean liner, formerly the German liner Kaiserine Victoria Augusta will arrive at Quebec the last of the month, on her initial Canadian voyage.

She is the largest liner ever assigned to the St. Lawrence route, being 700 feet in length, breadth 77 feet and draft of water 34 feet.

WHAT CANADIANS READ

About 1500 publications of all kinds are issued in Canada and read by Canadian people. These include 121 daily newspapers, 981 weeklies and 218 monthlies, besides bulletins and occasional publications. Nine daily newspapers have been absorbed by others or have suspended publication since the beginning of 1920.

COAL FACTS

One ton of good gas coal will yield about 10,000 cubic feet of coal gas. South America has no defined coal fields. Small unconnected fields are being worked, the largest in Chile.

Clearfield, Pennsylvania, produces a bituminous coal having the highest percentage of fixed carbon and the highest heat ratio of any bituminous coal found on the North American continent. The per cent of fixed carbon in this coal is 71.02, the fuel ratio 2.82 and the ash 2.65.

The coal mined on Vancouver Island is the newest formation of any so far found in North America.

According to recent estimates the coal reserves of Canada amount to 1,260,635,000,000 tons. The bituminous coal of Nova Scotia is estimated will last for 700 years.

William Oliver, the well known citizen of Blairmore, who has been on an extended visit to the east, returned home last week end.

Mr. Plascott, of Bellevue, is relieving Miss Shead on the ledger at the Union Bank. Miss Shead is absent on her holidays.

NINE HOSPITALS
ON SOUND BASIS

One of the most important advances in public health supervision on the American continent has been made in Alberta during the past five years. Since the Municipal Hospitals act came into force five years ago, nine municipal hospitals have been established, all having modern equipment at the disposal of the residents of the districts served.

Taxes have not been increased to any extent in providing running expenses for these institutions, and the benefits which have been enjoyed the rural districts in which they are located, have been beyond compare.

Following is the list of municipal hospitals, number of beds and special taxation required in each case:

Manville, ten beds, three assessments of 3 cents per acre on rural lands.

Vernillion, 18 beds, three assessments of 3 cents per acre.

Drumheller, 42 beds, three assessments of 3 cents per acre.

Lalay, 12 beds, three assessments of 3 cents per acre.

Cardston, 12 beds, three assessments, the last one made this year, 2 cents per acre.

Onaway, 10 beds, two assessments of 3 cents per acre.

High River, opened January, 1921, 18 beds, one assessment of 3 cents per acre.

Bassano, 22 beds, two assessments of 4 cents per acre. This higher rate in Bassano district is because so much non-taxable C.P.R. lands in the district. It is the only district where the rate is higher than 3 cents.

None of these hospitals have defaulted in their bond payments and none of them are in debt. The rate per day to residents of the district is \$1 per day, about one fourth of the rate in the large cities.

The International Harvester company made a net profit of \$16,655,000 in the past fiscal year. Binders which cost \$150.00 before the war still cost the farmers \$220.00. The total sales of the company for 1920 were the largest ever recorded in one year, a grand total of \$225,000,000.00.

Blairmore Lodge, No. 68, meets every Tuesday at 8 p. m., in the Oddfellows' hall, Officers for ensuing term: W. Patterson, N.G.; J. J. Patterson, V.G.; W. T. Patterson, R.S.; J. Montabetti, treasurer.

THE ENTERPRISE
IS UP TO DATE

The Enterprise has added to its already modern printing plant, a Kossack punching machine for use in preparing account sheets, loose leaf ledger leaves and such high class work.

The machine is the Pony No. 6 and with it have been ordered four sets of dies for use in various kinds of high class printing. We respectfully solicit job work and printing of all kinds and are well equipped to turn out work of as high class as any country paper in southern Alberta.

TRADES CONGRESS

PROMISES A SCRAP

Civil warfare in the ranks of organized labor will come to a head at the annual convention of the Dominion Trades and Labor congress at Winnipeg on August 22 according to an Ottawa dispatch.

It has been simmering ever since the congress executive revoked the charter of the Canadian Brotherhood of Railway Employees, and were made the subject of a legal injunction by the courts at the instance of A. T. Mosher, president of the brotherhood.

The whole question is thus referred to in a paragraph of the call for the convention signed by President Tom Moore and Secretary P. M. Draper. "During the past year the power to interpret the constitution and expressions of the annual convention has been taken away from the executive and transferred to the courts."

This situation has been brought about by their injunction secured by the Canadian Brotherhood of Railway Employees against their suspension, and action will be necessary by this convention if the policies of the past nineteen years, making the congress primarily the legislative mouthpiece of the International Trades Union movement, are to be maintained.

CATTLE BUSINESS

IN SERIOUS FLIGHT

The crisis of the cattle industry was informally discussed at a meeting of the board of trade committee this week, at Winnipeg. A number of shippers were present. It was mentioned that as one of the features of the depression green hides are no longer quoted on the market, there is no sale for cattle hides. They are a drug, and shippers have been advised accordingly by the abattoirs. With the market however, shot to pieces, and other choice cuts of meat retalling at forty cents in Winnipeg, with round steak at twenty. In fact, there has been no reduction in the retail price of meat. The butchers charge the continued high price of dressed beef in the face of the big drop in the price of beef steers to the abattoirs, and there is talk of establishing a public abattoir.

The packers, however, claim the relative spread is no greater than it has ever been, the trouble still being the refusal of the average man to take an inferior cut at any price. One packer says he had to sell a large number of shoulders of cattle last week at two and a half cents per pound to get rid of them.

PINCHER CREEK EXHIBITION

Prize lists for the Pincher Creek Exhibition, which will be held on August 23 and 24 have been sent out. The entries include every variety of livestock, grain and household products and very generous prizes are offered. The Enterprise wishes every success to the people of Pincher Creek in their exhibition and is pleased to see the constant interest taken in agriculture by the farmers of that thriving district.

MILLINERY OPENING

Mrs. C. Easton, of Coleman, will show a complete line of Fall and Winter Millinery, beginning Friday, August 26th.
 —18-2-c

FROM BLAIRMORE
TO FAR AWAY SYRIA

J. G. Saad the well known merchant of Victoria street, has just received a letter from his wife who left Blaimore last October for a visit to their native Syria, which belonged to Turkey before the war.

Mrs. Saad writes that since the French government has taken over the control of Syria, under the peace treaty, that conditions have greatly improved. Murder, robbery, rapine and profiteering which were all rampant before the war have been suppressed and the people are now living in peace, prosperity and good order.

Before the war Mr. Saad purchased a small farm in the Mt. Lebanon district, and its value has greatly increased. The principal crops grown there are grapes, figs, dates, oranges and other citrus fruits and prices now being realized are better than for years. Mt. Lebanon, from which Mr. Saad comes, is famous in biblical history as being the home of the great cedars which aided in the construction of King Solomon's temple.

A 17-year old boy was fined \$10 at Calgary this week for going swimming in sight of a public road without a bathing suit.

A quarter section of irrigated land near Taber was sold this week for \$95 per acre. Before being irrigated it was worth about \$25 per acre.

"Now I lay me down to sleep,
 I pray the Lord my soul to keep;
 If I should die before I wake,
 Well, I should worry."

Mr. and Mrs. Fred Wright returned from a couple of weeks holidays this morning.

COUNTRY WEEKLIES
PLACING MACHINES

F. W. Stainbrook, representing the Linograph Typetting machine company, of Davenport, Iowa, was a Blaimore visitor this week, in the interest of his business. A new Linograph has just been installed by the Munson District News and one ordered by the Nanton News. The paper at Taber is also considering a new Linograph, and the Bassano Mail has just installed a new late model Linotype machine, costing \$4000.00. Many Alberta weeklies are doing away with the old method of hand-setting type.

Attention of the traveling public is invited to the circumstance that passports issued by many foreign governments enable the bearers to proceed only to Canada. Before a passport entering Canada upon such a passport can proceed to the United States, it is essential that the passport be endorsed by a diplomatic or Consular officer of the issuing government, as valid to enable the holder to proceed to the United States.

Therefore, holders of passports so restricted should, before making application to the American Consulate at Fernie for a visa, transmit them to the nearest Consular officer of their own government for the proper endorsement.

The foregoing statement does not, of course, apply to passports which do not expressly limit the bearer to Canada, or any other specified countries.

From 1896 to 1918 the annual productivity of one coal miner in England fell from 312 to 226 tons.

Out of a total of 650,000 school teachers, about 125,000 leave the profession, annually. Most of these embark in matrimony, but thousands enter less arduous lines of work.

DRUG "REFORMER"
UNDER ARREST

"Nosey" Wilson a reformed crook and burglar who launched a campaign against the alleged drug ring in Vancouver last spring, but who suddenly disappeared from the coast city, has been arrested in Calgary for attempted shopbreaking and for having drugs in his possession.

A beautiful black and white cow with crumpled horns and lovely brown eyes, is walking around the streets of Blaimore, somewhere, with her hide filled to a bursting point with fresh, green vegetables. She almost completely destroyed a fine garden belonging to Mr. T. Dawson, one night this week.

There are two kinds of men with whom it is absolutely unsafe to trust your wife on an ocean voyage, those who have cross eyes and those who have not.

There are some girls whom men persistently follow and then there are many girls who do not use rouge at all.

MILK WAR IN CALGARY

A miniature milk war is in progress in Calgary this month, because the Union Dairy which controls the milk supply has prevented the Didsbury Milk Producers association from entering the city with their product. Several conferences with Mayor Adams have been held and the Didsbury association, which is an independent organization of farmers, promises to reduce the price of milk to consumers if permitted to market their product in Calgary.

W. J. Clement, formerly owner of the Penitentiary Press has been appointed to the teaching staff of Columbian college, New Westminster.

NOTES FROM COWLEY

School reopens here on Monday,
August 22nd.

Mr. James Gerry, is a Medicine
Hat visitor at present.

Miss Janet Twaddle of Lethbridge,
is a Cowley visitor at present.

Mr. C. Bundy has purchased a new
Overland car.

Mr. John Miller, for some time the
guest of H. D. Gerry, has gone to
Toronto.

Miss Mabel Edgett, of Lethbridge,
is spending a few days with her parents here.

In spite of this being the busy
season, a good sized crowd attended
the dance held here on Friday night.

Miss Isabel Melvor has returned
to Calgary after an extended visit
here with relatives.

Mrs. James Conner has returned to
her home at Wrentham after a
prolonged visit with relatives here.

The West Wind girls held a garden
party on Tuesday evening at the
home of Mrs. C. Bundy. The occasion
was to raise money to buy the girls
gymnasium suits.

Miss M. J. Norton, a former school
teacher of Heath Creek school, has
again accepted that position and
arrived from Nova Scotia last Sunday
morning to take up the work.

Mr. Chas. Tait, for several years
agent of the Alberta Pacific Grain
Elevator at this point, has been re-
moved to Nemissan, Alberta. He
is relieved here by Mr. Moir from
Lomond.

Rev. P. Moore, of Cowley, and Rev.
D. K. Allan, of Coleman, exchanged
pulpits on Sunday last. The Lord's
Supper was administered here the
same day.

The remains of the late William
Robinson, who died this week at
Mission City, B. C., was shipped here
for burial. The funeral took place
on Monday from the Presbyterian
church to the Cowley cemetery. Mr.
Robinson was well known here hav-
ing lived in these parts for many
years. We join in sympathy for the
bereaved ones.

ANCIENT HISTORY IN BLAIRMORE

(From Blaimore Times August
19th, 1921.)

On August 31st the government of
Northwest Territories ceases to exist.

The new seats and bell for the
school house arrived this week and are
being placed in position.

Tuesday, August 15 was payday at
Coleman and was the largest in the
history of the town.

W. Donald of the P. Burns company
was looking over the branch shops in
the Pass this week.

Fernie was again devastated by the
fire fiend on July 29th, losses amount-
ing to \$100,000 were sustained.

The International Coke and Coal
company broke their own record by
handling 1000 tons of coal in an eight
hour shift.

Mrs. H. Gibeau and Mrs. R. Steeves
drove up from Frank on Thursday,
their horse becoming unmanageable,
made a wreck of the rig.

The Conservatives in convention
at Red Deer met on Wednesday and
selected R. B. Bennett of Calgary, as
leader of the party in the new province
of Alberta.

J. M. Carter of the Frank dairy,
has lately purchased the goodwill,
business and stock of the Phillips and
Lewis dairy of Bellevue and added it
to his already extensive business.

BIG PROGRAM AT LABOR CONVENTION

Six important topics for discussion
at the convention at Winnipeg this
month to organize a dominion wide
labor party, will be presented by the
delegates who will attend from Cal-
gary, says the Albertan. These dele-
gates, who are also delegates to the

CHURCH FIELD DAY A GREAT SUCCESS

The weather man, who had been
frowning and gubbling all week,
brightened up in time to put on his
happiest smile for the church field
sports on Wednesday afternoon and
evening.

The athletic grounds were the
scene of three hours of genuine fun
and merriment as the long list of
events was carried out.

Those present entered into the spirit
of the day and enjoyed an after-
noon of real old-time sport.

The Blaimore band was present
with a fine program of excellent se-
lections and the picnic dinner pre-
pared by the women was exception-
ally fine. A large tent for use as a
kitchen was set up adjoining one of
the frame sheds, while the long table
was placed in the shed. Every im-
aginable variety of delicious food
was prepared in abundance and the
table was filled a number of times dur-
ing the evening.

Following is the list of the events
and the winners:

Baseball game—Blaimore vs Cole-
man, Juniors, 10 to 7 in favor of
Blaimore.

Dads vs. Boys, 15 to 9 in favor of
the "Dads."

The football game, Married and
Single men, resulted in a win for the
7 7 7. The score was 1-1.

Great credit is due to the commit-
tees which had charge of the arrange-
ments and the church deeply ap-
preciates the liberality and friendly spirit
of Blaimore business firms that
contributed to the success of the day.

A very satisfactory sum was realized
from the dinner, all of which will
be used in furnishing the new home
of the pastor, Rev. W. T. Young.

Wycliffe was defeated by Hill-
crest-Bellevue baseballers last
week end to the tune of 8-5.

Wycliffe played a Coleman-Hill-
crest team at Coleman on Monday
night and won 6-0. They are
winners of the East Kootenay
league and will go down to the
prairie for several games.

A beautiful folder descriptive of
Calgary is being circulated in
town by the P. Burns company.
The folder is issued by the Calgary
Board of Trade, is filled with in-
teresting information and very
credible. The back page is taken
up with an excellent view of the
P. Burns packing plant and
employees.

Rev G. G. Webber of Olds, a
representative of the Lords' Day
Alliance was the guest of Rev. W.
T. Young the first of the week,
while making an official tour of
the Pass. Rev. Webber spoke in
Coleman but was unable to favor
Blaimore with an address, on
this trip.

Rev. W. T. Young of the Blair-
more Union church leaves on Mon-
day for Edmonton for a two weeks
vacation with Mrs. Young and
children who have been in Ed-
monton for some time. Upon
their return to Blaimore they will
occupy their new residence near
the Union church.

Simone, the little daughter of Mr.
and Mrs. Maurice Collette, died at
the family residence in Blaimore, on
August 16th, after a brief illness
of dysentery. No funeral services
will be held here, but the remains will
be shipped to Paris, France, for in-
terment, where services will be held.

trades congress, which meets at the
same time, are President T. Riley,
of the trades and labor council, and
Ald. Fred White, M.L.A., who was in
Quebec attending the I.T.U. conven-
tion. Mr. Turner of the running
trades, will also be in attendance at
the labor party convention.

The topics which the Calgary dele-
gates propose to bring up for discus-
sion are the following:
Unemployment; Immigration; Tax-
ation; Nationalization of railroads; El-
ection reform, including proportional
representation.

TWO PHONEY MONEY ARTISTS AT FERNIE

City Chief Police Lawson and Con-
stable Clarkstone last night went
what is now thought to be important
capture of members of American
counterfeiters' ring when two men
giving names T. L. Clarke and C. F.
Johnson aged 29 and 27 respectively
were arrested about a mile west of
Ferne when traveling towards it in
an automobile. These men had been
here a couple of days ostensibly to
purchase liquor for removal to the
United States.

They attempted to negotiate for a
quantity of liquor from a Fernie ex-
port store to be accepted today, but
late yesterday evening they ap-
proached the manager to deliver fif-
teen hundred dollars worth at some
point in the vicinity of either the
Montana or Idaho international bound-
ary without the formality of insur-
ance export documents.

Name _____ Address _____

Disarmament

The invitation extended by President Harding to Great Britain, France, Italy and Japan to join with the United States in a conference to discuss and consider ways and means of bringing about world disarmament was hailed with joy by people of all nations. The whole world is weary of war—ever Germany has had all the war she wants for a long, long time. Although the formal invitation to this conference on disarmament came from the United States, there is hardly any question but that British influence played a large part in it. It is even open to question whether the initiative in the matter did not come from Britain, where, however, it was realized that the extending of such an invitation by the United States would not be viewed with the same suspicion by other European powers as would be the case if Great Britain made it.

Such a conference as has been proposed can hardly fail to be productive of much good, even though it may fall short of actually achieving world disarmament. The millennium has not yet come, and it is too much to hope that all nations are ready to abandon all warlike forms of national defence. During the Great War it was a frequently voiced expression: "This is a war to end war." But conditions still prevailing in Europe and Asia seem to preclude the immediate possibility of disbanding all armies.

France, the victim of German invasion twice within the memory of many men still living, is far from being convinced that the day for maintaining an army of defence is passed. Russia is commonly credited with now possessing the largest army in the world, and under the present Bolshevik regime cannot be depended upon for one moment. Should all other nations disarm, dictators of the Lenin and Trotsky type might seize the opportunity to ride roughshod over Europe. Poland, rejoicing in its new-found freedom, with Bolshevik Russia on the one hand, and a resentful Germany on the other hand, is hardly likely to be willing to rely solely on Russian and German promises of good behavior. And is the world willing to trust Turkey?

But if complete disarmament is not yet possible, it ought at least to be possible to bring about a tremendous reduction in armaments and a consequent lessening of the probabilities of war, and its horrors should it unfortunately not be entirely avoided. With the ignoble surrender of the German navy, and its subsequent destruction, the greatest menace to the liberties of the world was removed. If the remaining naval powers—Great Britain, United States, Japan, France and Italy—can agree to put an end to the creation of larger and more powerful navies, smash up their submarines and put a ban on their further construction, a great advance step will have been taken, and an enormous reduction effected in the burden of taxation imposed on the people of these countries.

Again, if an agreement could be reached to eliminate the aerial services from use in war a further advance step would be taken, the horror of future wars materially reduced, and untold millions of money saved. Otherwise, we are going to witness the expenditure of enormous sums in the perfecting of aerial machines of destruction, with each nation trying to out-do and out-invent the others. If in this age of marvellous inventions, the nations could be brought into agreement to reduce armaments to the old land soldiers of past ages, eliminate all recent inventions such as the submarine and airship from war use, and place the ban upon the use of all future inventions for warlike purposes, millions of money would be saved, the terrible magnitude of the last war prevented of repetition, and much of the fascination of war in its newer phases removed.

Greatly as we would like to see it, there is grave doubt of its being presently possible to bring about complete disarmament, and it is open to question, therefore, whether more would not be gained at the forthcoming conference on the subject if the matter of land disarmament was not dragged in, but the efforts at disarmament, confined to naval, aerial, and kindred aspects of modern warfare.

There is a certain fighting instinct in the whole human race that cannot be entirely eradicated, but it should be possible for the nations to reach agreements which would stop the use of the inventive genius of man for the wholesale destruction of his fellowmen, and which would result in the prohibition of all new mechanical contrivances which, if persisted in, would make the next war a war of annihilation, involving not only soldiers and sailors on active service, but the entire civilian populations of all countries engaged in the struggle.

Electric Engine in Mine.

An electric storage battery locomotive, almost automatic in operation, is giving excellent result in a coal mine in Europe.

Don't think that because a man is an ice dealer he must be coldhearted.

At All Hours.

Has Bobbie been eating between meals? Bobbie has no between meals.

The population of the globe is increasing at the rate of 14,000,000 annually.

France Receives Radio Photograph

Transmitted Across Ocean By Powerful U.S. Wireless Station.

Transmission of photographs and written documents in facsimile across the ocean by wireless has been accomplished. Two successful tests of this epoch-making invention have been made at the powerful naval radio station at Annapolis, a photograph and written message having been sent to Malmaison, the French radio station.

The first test of the invention was the sending of a photograph of the recent Dempsey-Carpenter fight from the Annapolis station to France for reproduction in Le Matin, a Paris newspaper.

While the reproduction was said to have been fairly good, it was not as perfect as the engineers wished it to be. So another test was made.

This test was the sending of a facsimile written message from C. V. Van Anden, managing director of the New York Times, to Le Matin, the Paris newspaper. "Word came back that the message was reproduced almost perfectly."

Sure Protection For You While You Travel

You may find the water-bad, some poorly cooked food may cause trouble, a draught from a car window may give you an ache or pain—a cold room or damp sheets may cause rheumatic twinges. Remember this—any pain that is caused by congestion yields rapidly to Nervine. When your stomach is sour and upset, just try the magical effect of twenty drops of Nervine in sweetened water. It cramps when you are in the dead of night, Nervine will fix those awful cramps in a hurry. Keep a 35 cent bottle of Nervine in hand—always.

On Schedule.

Misses—"Mary, how is it that the eggs for breakfast are sometimes boiled soft and sometimes quite hard?"

Mary—"Well, mum, I'm sure I don't know. I put them in regular as the clock strikes eight, and I takes them out without fail when I hears the down train go by."

For Both House and Stable.—There is a good deal of similarity in physical speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Eclectic Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

True Word.

"There are few things more tantalizing to a man," declares the Havensville Review, "than to go home with something on his mind he wants to scold about, and find company there and be obliged to act agreeable."

Corns are caused by the pressure of tight boots, but no one need be troubled with them long when so simple a remedy as Holloway's Corn Remover is available.

Strawberries In Cold Storage.

Fruit growers in the lower Fraser Valley, British Columbia, have put over 1,000 barrels of strawberries in cold storage to be held until the canners are ready to take them. The berries are packed in sugar and will keep in condition for preserving indefinitely.

The indications of worms are restlessness, grunting, the tick, itching, or the more extreme nervousness, often convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powder. They will attack the worms as soon as administered and they pass away in the excretion. The little sufferer will be immediately eased and a return of the attack will be unlikely.

Burial Service By Wireless

Dead Soldier Committed to Deep Across 200 Miles of Water.

The burial service at sea by wireless was the unusual story brought to Liverpool by the incoming Cunard Carnarvon.

When the Carnarvon was 300 miles west of Fastnet a wireless message was received from the Canadian Government freighter, Canadian Trapper, London-bound, asking: "Can you oblige us with a copy of the burial service?"

The Canadian Trapper was about 200 miles distant. A freeman aboard the freighter had died and no burial service was available. The full service was sent by wireless, the dictation lasting an hour, and at the end the body was committed to the deep.

His Religious Belief.

The census-taker had asked many questions and Mike was tired of answering them. "And what is your religious belief?" the suave census man continued. "Go! forgive me, but I'm an atheist," said Mike.

How To Cook Corn

BY LORETTA C. LYNCH

An Acknowledged Expert In All Matters Pertaining to Household Management.

Since the Indians first showed the early settlers how to plant corn, this toothsome vegetable has been a favorite. About now, in all sections of the country, corn-cob is to be had. Often the housewife purchases tender ears of corn and when it comes to the table it is rather hard and tough. This is frequently due to the manner of cooking. To be at its best corn should be served as soon after it is cooked as is possible.

Husk each ear and carefully remove the growth commonly called "silk." Have ready a pot of boiling water. Plunge the corn into it and cover. Boil gently about ten minutes. About the last three minutes of the cooking add one level teaspoon of salt for each six ears.

Women not familiar with cooking corn make a mistake by over cooking. Ten minutes is quite sufficient if the water is really boiling. Another error has to do with the salt. If the salt is put in at the beginning it toughens the corn. Break an ear in half and cook one-half of it if directed at the beginning of this article. Cook the other half in salted water for half an hour. Then try both and note the difference in favor of the method above advised.

In serving corn-on-cob, drain it from the cooking water and place it between folded napkins on a warm plate. It should be served soon after cooking. Butter, salt and pepper are usually passed with corn-on-cob.

The shops are serving one of the niceties for serving corn-on-cob. The handles are stuck into the ends of the corn ear. In half-dozen sets they make useful gifts and may be obtained in real silver or plated ware.

Left-over corn has a variety of uses. Of course, it may be carefully reheated right on the cob in boiling water for a few minutes. On the other hand, you may want to carefully cut it from the cob and surprise the family with corn creole style.

To prepare this for two cups of corn allow one cup of tomato sauce, a can of the thick purée sold for concentrated tomato soup is good for this purpose. In it cook a tablespoon of chopped onion, two tablespoons of chopped green pepper, and a little chopped mince, if on hand, for five minutes. Add a bit of butter or a little bacon or salt pork drippings. Add salt and pepper to taste.

Pour into a baking dish after it has been removed from the fire, and mix with the corn. Cover the top with buttered bread crumbs and brown in the oven. This gives the corn but little recooking and therefore helps to keep it tender and digestible. You will like these corn fritters.

The corn fritter is served as the main dish at a meatless luncheon or they may accompany fried chicken with its cream gravy.

To make these fritters, sift together one cup of flour, one-half a cup of flour, one level teaspoon of baking powder, one-fourth of a teaspoon of salt and one-fourth of a teaspoon of paprika. Add a well-beaten egg of one-fourth of a measuring cup of milk. Stir this slowly into the flour mixture. Add a tablespoon of melted butter and a cup of corn. It may be necessary to add more milk.

At any rate, the mixture should drop easily from the spoon. Cook by dropping a spoonful at a time on a well-greased hot griddle. When the edges are done, it is time to turn the cake. The corn fritter mixture may also be cooked by dropping in hot deep fat.

For Western Farmers.

This year the entire crop will put in the pockets of the Western Canada farmers the sum of about \$700,000,000. To produce this there is a tillage of some 30,623,000 acres, while 400,000 acres of arable land await the plough in the prairie provinces.

Strangled with Asthma is the only expression that seems to convey what is endured from an attack of this trouble. It is slowly killing the man. J. D. Kellogg's Asthma Remedy is beyond measure. Where all was suffering there comes comfort and the bronchial tubes completely cleared. This unique remedy is worth many times its price to all who use it.

Convinced Tanlac Is Wonderful Medicine, -Declares Miss Reed

"I am convinced that Tanlac is a wonderful medicine because it has been more than a year now since I took it, but it toned up my entire system so well that I am still in the best of health," said Miss Maie Reed, popular saleslady, residing at 406 Kennedy Street, Winnipeg, Manitoba. "I dislike to have my name in the paper, but Tanlac has helped me so much that I actually feel it my duty to express my gratitude, so want everybody to know about my case. Nearly a year and a half ago, while I was living in Regina, my health broke down completely. I had rheumatic fever and for eight months was flat on my back in bed, unable to move an inch. I finally got out of bed,

but was so weak I seemed to have no energy at all. My appetite was gone and instead of getting better I just worried along, getting worse, if anything. I could get no sound sleep and just felt miserable all the time.

"A friend of mine finally suggested that I try Tanlac, so I started taking it and by the time I had finished my second bottle my appetite was simply wonderful. I took four bottles in all, and all my strength and energy had come back to me and I was feeling like a different person. My health has been fine ever since and I haven't missed a day from my work. I can't say too much for Tanlac."

Tanlac is sold by leading druggists everywhere.

How Labrador Was Named

Portuguese Explorers Thought Native Would Make Good Laborer.

It is believed that Labrador was so named because Portuguese explorers thought the natives would make good laborers, or because of the labor required to make a living there. The name is connected with the old Spanish name of labor. The Labrador coast was discovered in the tenth century by Leif, the Norseman, but no explorations were made. It was again discovered in 1497 by John Cabot. Explorations and settlements were made and the peninsula was named.

LISTLESS, PEEVISH GIRLS

When a girl in her teens becomes peevish, listless and dull, when nothing seems to interest her and dainties do not tempt her appetite, you may be certain that she needs more blood than her system is provided with. Before long her pallid cheeks, frequent headaches and breathlessness and heart palpitation will confirm that she is anemic. Many girls are the result of their girlhood experience, can promptly detect the early signs of anemia, and the worst motor for the blood is trouble to develop further, but at once gives her daughter a course with Dr. Williams' Pink Pills, which renew the blood supply and banish anemia before it has obtained a hold upon the system.

Out of their experience thousands of mothers know that anemia is the sure road to worse ills. They know the difference that good red blood makes in the development of womanhood. Every headache, every gasp for breath that follows the slightest exertion by the anemic girl, every pain she suffers in her back and limbs are reproaches if you have not taken the best steps to give your weak girl new blood, and the only sure way to do so is through the use of Dr. Williams' Pink Pills. New blood is infused into the system by every dose of these pills. From this new rich blood spring good health, an increased appetite, new energy, high spirits and perfect womanly development. Give your daughter Dr. Williams' Pink Pills, and take them yourself and note how promptly their influence is felt in better health.

You can get these pills through any dealer in medicine or by mail post—30 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Soldier Caught

With Czar's Jewels

Arrested When Attempting to Disguise himself as General. A Budapest despatch says that a Hungarian soldier who recently returned home from Siberia has been arrested on a charge of attempting to dispose of \$300,000 worth of jewelry, the property of the former Royal Russian family.

The suspicions of a jeweller at Nagykanizsa, a small town south of Budapest, were aroused when he noticed that several articles offered for sale bore a monogram making them the property of about \$700,000,000. To produce this there is a tillage of some 30,623,000 acres, while 400,000 acres of arable land await the plough in the prairie provinces.

When he was taken into custody the soldier declared that he had taken part in a revolution against the Soviet troops in Siberia, and that the jewellery was part of the booty captured.

Prince To Send Winners.

The Prince of Wales was a notable winner with his exhibits of Shorthorn cattle and Shropshire sheep at Bath and West and Southern Counties Agricultural Show, England, being the winner of most of the prizes. He declared his intention of shipping some of these farm aristocrats to his ranch near High River, Alta., where there is already a fine blooded aggregation.

What will be the largest wireless station in the world is to be erected at Shanghai.

The Polka Dot

Editor Finds Out Where Pattern Got Its Name.

Although Lord Northcliffe, of the London Times, with a reputation for more knowledge than the average cyclopedist, was stumped by the meaning of "polka-dot," as applied to the cravat he was wearing, he left Toronto for the west, the editor of the Druggists Economist has unearthed the solution to the problem.

Three quarters of a century ago a Bohemian peasant dance called the polka, swept the old world and the new, creating as much of a sensation as the one-step and the fox-trot of today. Everyone talked of the polka.

Just then some enterprising manufacturer got out a new style of dark silk fabric with contrasting spots or dots upon it. The rest was simple. The new fabrics, worn by the fashionable dancing the polka, became "polka dots," just as later we had merry widow hats and Alice blue costumes, and so on. There were polka shoes, polka gowns and all sorts of polka things.

Setting It Right.

Kansas Paper.—We wish to apologize for the manner in which we disgraced the beautiful wedding last week. To such an error of the printer we were made to say "the roses were pink." What we should have said was "the roses were pink." Boston Transcript.

CLARK'S Tomato Soup is such a treat --

Fine ripe tomatoes fresh from the fields give it their delicious flavour, and all you have to do is to heat and serve.

CLARK SOUPS are made in 13 different sorts, and include chicken.

Like all "Clark Good Things" the price is moderate.

Made from Canadian Farm Produce and sold everywhere in Canada.

Polish-German Question Still Causes Division Between Allied Nations

Paris.—The French and British prime ministers are far from agreement upon the new line dividing the Upper Silesia, drawn by the experts appointed for the purpose. Therefore, the work of the Supreme Council, which has had under advisement the Silesian problem, cannot be completed for the present, nor is it possible to forecast the outcome of the differences which have arisen over this knotty German-Polish question.

The position of the French Government as explained by M. Briand, is substantially: "The experts have presented their conclusions, and have said to the Supreme Council, 'Now decide.' We do not decide the same way as the British, and disagreements have occurred. The experts' new line which was arrived at by a majority vote has not been agreed upon by the council, and has been referred back to them, and they have replied: 'We shall come back before the council if we can reach a unanimous agreement.'"

The French experts have studied the line proposed by Mr. Lloyd George.

According to their calculations this line would give 200,000 Polish votes to Poland and 270,000 to Germany on the one hand; and 100,000 German votes to Poland and 600,000 German votes to Germany on the other, whereas the plebiscite gave 60 per cent of the votes to Germany and 40 per cent to Poland.

Premier Briand informed the British delegation that he would be willing to accept, as a last resort, the Silesia line in Silesia, according to the Havas Agency.

This line gives Poland the western part of the industrial district, notably Gleiwitz, Zabrze and Tarnowitz.

Butter Competitions

Edmonton Dairy Secures the Highest Score in Dominion Contest.

Ottawa.—The quality of the butter submitted to date by the provincial creameries in the Dominion educational scoring contest is better than in any previous year, according to the Dominion Dairy Commissioner, J. A. Reddick.

Edmonton City Dairy secured the highest score of any sample since the competition commenced in 1910, with 98 points for their July sample.

The highest scoring sample for June was supplied by the Central Creameries, Calgary, with 97.5 points, and for May by the Shoal Lake Creamery of Manitoba with 97 points.

Fire Visits Strathclair.

Strathclair, Man.—A Chinese laundry, a butcher shop, a general store, and a hardware store in the business district of Strathclair have been destroyed by fire. The loss will be about \$25,000, partly covered by insurance.

Secondhand experience is almost as good as new, and it costs less.

Allies Will Send Relief To The Starving Russians

Lloyd George Has No Admission For Soviet Government, But Will Act on Humanitarian Grounds.

Paris.—The United States ambassador took part twice in the sessions of the Supreme Council, once in replying to Premier Lloyd George that he agreed that the traditional policy of the United States gave traders the right to sell arms to either belligerent in the Near East, and again, in replying to enquiries by the prime minister respecting Secretary Hoover's Russian relief plans.

M. Briand, the French premier, began the discussion of the Russian famine by saying that the Russian people who had fought with the Allies in the beginning of the war might justly look to them now for help.

"I propose that all the Allies join with the United States and the other nations who are interesting themselves in the administration of relief through Red Cross societies and other private sources," said M. Briand.

"I heartily agree to this," exclaimed Lloyd George, "but I wish to point out," he added, "that such efforts could not reach many of the sufferers. The Red Cross cannot perform the miracle of the five loaves

Loyalty of People of Dominion

King George Is Grateful For Work of Premiers at Conference.

London.—His Majesty King George in his reply to the address from the Imperial conference, emphasizes the fact that he had stirring and ineffable proofs from the peoples of the dominion of their loyalty and devotion in the enthusiastic and touching receptions invariably given on the several occasions of his visit to different parts of the world where the British flag flies, proofs which had been renewed in the remarkable demonstrations of welcome and goodwill to the Prince of Wales during his visit of the past three years. Furthermore, where could one find such ample testimony to their common allegiance to empire and sovereignty in their whole self-sacrifice during the four and a half years of the World War?

His Majesty added: "I followed with keen interest the deliberations of the conference. These meetings

and the exchange of views between ministers of the great communities which they represent, upon the many problems affecting the common interest of the British peoples, are essential to the unity and well-being of the empire and the general peace of the world. Every facility must be given for such periodic meetings, and to ensure this, we look confidently to men of science and research to discover an improved means of inter-communication between all parts of the British commonwealth.

"I know the work of the conference has been strenuous, entailing severe demands upon all concerned, but their time was well spent in advancing further along the road of progress and development.

"I heartily thank them, on my own behalf, and that of the Queen, for the address. We wish Godspeed to those who are leaving England and a safe and happy return to their respective homes and families. More than ever do we follow with feelings of affection, the welfare of our people at home and across the sea."

Five Japs Killed in Manchuria

Police Attempted to Enter Japanese Premises Without Permit.

Honolulu, T.H.—Five Japanese were killed and 17 severely injured in a fight between 70 Japanese residents and 50 Chinese police at Niu Chung, Manchuria. A Tokio despatch states the disturbance arose out of attempts by the police to enter Japanese premises in the city without a permit. The foreign office has instructed Minister Ohta to investigate the incident and protest to the Peking Government if it appears that it was provoked by the Chinese.

Proclaims Holy War.

Bulletin, Angora, Anatolia.—A holy war has been proclaimed by the King of the Hellenes to assist the Turkish Nationalists in their fight against the Greeks in Asia Minor.

Ample Harvest Help

Winnipeg.—With approximately 25,000 harvest hands required for Manitoba and Saskatchewan already in the west, it was decided at a meeting of employment officials here to notify the railway officials that further excursion trains from eastern points should be held up, pending a survey of conditions. Whether the west has sufficient farm labor or not will be decided in the next day or so. Surprise was expressed by local employment officials at the expeditious manner in which the railways had dispatched so many harvesters from the east.

Want Teachers of High Ideals

Premier Drury Delivers Pointed Address at Teachers' Conference.

Toronto.—"Heaven save us from the hide-bound teachers. Heaven save us from the fellow who would rather pass a word than see a beautiful line of literature, and save us from the fellow whose only idea is examinations," exclaimed Hon. E. C. Drury, premier of Ontario, extending a welcome on behalf of the province to the Imperial conference of teachers in Convocation Hall.

"The great danger of the teacher is that of yelling at a nut," continued Mr. Drury. "What we need are teachers of high ideals and broad vision who recognize the right of human nature to something of its own development. Nations have fallen because of wrong teaching in the schools."

A lively feature of the session was an animated discussion which followed an address on celebration of Empire Day by Col. T. E. Perritt, principal of the provincial Normal School, Regina, who went overseas as officer commanding the 68th Battalion, losing his sight in the war and returning to all his former educational position in Western Canada.

Col. Perritt advocated the addition of another day to the calendar of school holidays, maintaining that there was just as much need for the school side of a "provincial day" as there was for the celebration of Empire Day or Dominion Day.

Quebec Town Destroyed by Fire

Hundreds of People at Aylmer Are Rendered Homeless.

Ottawa.—Fire of a disastrous character, fanned by a strong wind from the southwest, swept Aylmer, Que., this afternoon, and left in its wake a charred and blackened ruin of what was formerly a quiet and picturesque town.

At least one death was caused by the fire, seven hundred persons were rendered homeless and the property loss is estimated by Mayor Nash, of Aylmer, at \$750,000. Most of the principal buildings in the town were razed by the flames and the homes of some 125 families lost.

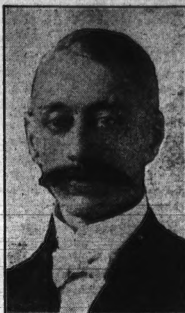

Locate Rich Iron Prospect

Find Near Sault Ste. Marie Most Promising in Canada.

Sault Ste. Marie, Ont.—What is characterized as the most promising iron prospect in Canada has been located 67 miles north of Sprague and six or seven miles south of the first reserve in the Blind River country, 100 miles south of the Sault, by Col. J. A. Currie, of Toronto, M.P. for North Simcoe, and Archibald Campbell.

The find was located about a mile and a half from the site of the discovery, and native of the vicinity, who were familiar with the iron traces in the soil, maintained that it had come down from the Hudson Bay district.

Wheat Board Defunct

Finishes Its Activities After Two Years' Existence.

Winnipeg.—On the second anniversary of the foundation of the Canadian Wheat Board a meeting of members terminated the board's activities. No statement was given out at the close, members deciding that it would be better to refrain from doing so, notwithstanding a promise was made that a statement would be given.

The board came into existence August 11, 1919, and was formed for the purpose of assisting the farmers to market their grain under protective measures.

Employment Plans Meet With Response

Minister of Labor Trying to Relieve Unemployment Situation.

Ottawa.—The request of the Minister of Labor that provincial authorities call conferences of all interested to deal with the unemployment situation, is being well received through the Dominion, judging by replies reaching the department here. It is expected that after the holding of provincial gatherings there will be some sort of co-ordinated effort and ideas together with a national conference, at which the Minister of Labor will probably preside, and at which plans for securing employment for the workless on a national basis will be formulated.

Vacancy for Lieutenant-Governor.

Ottawa.—The appointment of a successor to Sir James Aikins, lieutenant-governor of Manitoba, whose formal term of office expired on August 8, awaits the return of Premier Meighen.

Sir George Foster, acting premier, when asked about the appointment said that the matter would be dealt with by Mr. Meighen. He gave no opinion as to the probable choice for the position.

To Unify the Laws Of the Provinces

Ottawa.—An attempt to unify the laws of the various provinces, with the exception of the province of Quebec, which has been under consideration by a committee for some time, will be reported upon at the annual meeting of the Canadian Bar Association which opens here on September 6, and continues until September 8. Each province, with the exception of Quebec, is represented by a commissioner. The exception on the part of Quebec is due to the radical differences in its insistence on the maintenance of its civil laws granted under the B.N.A. Act.

The Life of Ne-Gua-nan-I-sew

By G. O. MAS-ES (Little Clerk).

(Copyright)

(Continued)

About this time, now in the thirties, a young colored doctor from Chatham, Ontario, had settled in Kinston, some thirty miles west of my hometown, and was practising his profession there and visiting the scattered settlers with much success. This was glad news for me and I drove up and called on him at the first opportunity, and we soon became fast friends. He was much interested in the Indians and when I told him of the death of Ne-gua-nan-I-sew's children and described the symptoms, he made me promise that if another child was born to this couple it was to be brought up to him for examination. On my next visit to Kinston, and his poor wife and I listened with the greatest eagerness to my tale of the new doctor, and it was rather amusing when I described his color. Ah, they said, if a white doctor's medicine is strong, why a black doctor's must be stronger. However, they promised faithfully if a new baby came they would surely follow my advice. A year or so elapsed and in they came with a fine little baby girl in the Moss Bag and resembling her mother very much. Both were anxious to see the new medicine man, so we all went up to Kinston, I going as interpreter. After a careful examination the doctor gave certain instructions and these they promised faithfully to carry out. Then in three months time, and in fact every three months for at least a year, they were to bring the babe for another medical examination. At about the age of two the doctor performed a slight operation for tubercular gland. The child threw, the parents were immensely grateful, and this girl baby gradually developed into a fine handsome young woman who went to Emmanuel College. She was the pride and delight of her parents, and through her efforts they both became converted to Christianity. In the meantime, two other children were born to Neshtow and being duly treated by Dr. Shadd, grew up fine youngsters. A happier more contented Indian family you could not find, but alas, the sequel of this true tale proves that in the midst of life we are in death.

The season was early fall, following an extremely dry summer, and Neshtow and all his family were camping in the hills south of Ethelton. The country was broken and brule, with a tremendous growth of grass and much dead old bottom. For days the atmosphere had been smoky. Suddenly a heavy gale of wind arose and Neshtow finally decided to make for the open country, but in every direction they tried to proceed, fire or dense smoke headed them back. Finally, in despair, he set all hands to make as big a clearing as possible, also to dig a hole (axes the only tool) to shelter them in the fire swept-over camp. Then he hobbled and threw his two ponies and covered their heads up with a blanket. How they all worked in spite of the awful heat and suffocating smoke, then with a roar the actual fire was on them and one by one he saw his dear ones, utterly reckless of his own life, he clasped them in his arms to extinguish the burning garments, but his loved wife, his brilliant daughter and the two young children all perished.

Six U.S. Prisoners Released. —Riga, Latvia.—Six United States prisoners in Russia have been released by the Soviet authorities and have arrived at Narva, Estonia, in fair condition. The six were Emmett Kilpatrick, Weston Bates, William Flick, B. Kabanian, H. J. Lamart and Russell Pallinger.

A town cannot grow without business. By helping your local dealer you assist the community.

When a rescue party arrived he was still conscious, though very badly burned. They insisted on taking him down to the doctor, but his wife would not let him, his loved ones, the quicker the better.

I was not present when they brought the poor maimed child of nature into Dr. Shadd and laid him on a couch. After a short examination he pronounced the case hopeless, and when they told poor Neshtow this, he thanked God and calling his friends who had rescued him he dictated his last wishes. He asked that sufficient of his goods be sold to meet his debts, and sent a special message of goodwill to me. Then, folding his poor burnt arms across his chest, and with a cheery "Goodbye, doctor," thus perished Ne-gua-nan-I-sew, a gallant Indian gentleman.

Fortunately some years before the date of the wiping out of this family, old South-Wind and his wife had died so they were spared much grief.

Indian Prevention of Bush Fires.

Old South-Wind was my first Indian friend in the Stony Creek country (now Melfort district), and not only selected my first location, but gave me much land and sound advice as to me, it was near district. His forefathers, for generations back, had made this district their hunting grounds and he pointed out to me with pride the fact that all the first growth timber was still standing, uncut by fire. When asking him what I should do in regard to this preservation of the green woods (which of course meant saving the fur), he replied as follows:

Just as soon as the snow goes off in the spring and the grass on the ridge is dry, put out your fires. The snow is still in the woods and no harm will result. Then later on as the hay swamps dry up and you have the ridges surrounding them burnt off, why do the same to the hay. The snow is still in the woods and no harm will result. Then later on as the hay swamps dry up and you have the ridges surrounding them burnt off, why do the same to the hay.

I followed the old Indian's advice from 1883 to 1893 without losing a stick of green timber, but in the year 1893 a number of settlers came in and when I was burning the ridges in the spring of 1894, I lost a great many men from North Dakota, warned me that he had been appointed a fire guardian and that I would be pulled if I did not stop putting out spring fires. I tried to show the settlers the folly of this but without success, so for two or three years the old grass collected until it formed a mat on the ground over a foot thick, then one of their number let a fire out in a dry fall. Many of these new settlers lost their buildings, several barely escaped with their lives, and two young Indians perished in the hills. Millions of feet of good green timber were burnt, and some thousands of acres of black soil were burnt off clean down to the clay sub-soil and, naturally, the fur-bearing animals were wiped out.

This law from Regina may have suited southern ranchmen but it was a positive evil in this country where more grass grows on one acre than on ten or twenty in the south. Our legislators should have had old South-Wind at their councils.

We few settlers became exhausted I tried to show the settlers the folly of this but without success, so for two or three years the old grass collected until it formed a mat on the ground over a foot thick, then one of their number let a fire out in a dry fall. Many of these new settlers lost their buildings, several barely escaped with their lives, and two young Indians perished in the hills. Millions of feet of good green timber were burnt, and some thousands of acres of black soil were burnt off clean down to the clay sub-soil and, naturally, the fur-bearing animals were wiped out.

Fire Raging in Russian Oil Wells

Flames Cannot Be Extinguished and Loss Will Be Disastrous.

London.—Fires are raging in 18 oil wells in the suburbs of Batum, the great oil centre in Asiatic Russia, according to advice from Reval, Estonia, by the Central News Agency here.

There appears to be no means of extinguishing the conflagration, the message added, and the loss of oil will be disastrous. The disaster will be more keenly felt on account of the typhus and cholera in that district and the consequent scarcity of labor, resulting in scanty supplies of coal and firewood for the winter, the message said.

Strange Airship Fires On Launch.

Providence, R.I.—Sweeping down Narragansett Bay with its machine guns wide open and spraying the water with a rain of bullets, an unidentified airplane riddled and nearly sank a launch containing five people, causing a girl passenger to be wounded and slightly injuring a man.

Of Local Interest

There are 4273 miles of railway in Alberta.

For funeral flowers phone 212, Crows' Nest Pass Undertaking Co. —18-4-4

Miss Dolly Barrell of Calgary is a guest of her aunt, Mrs. W. Howe, for a few days this week.

There are 856 grain elevators in the province of Alberta, with a total capacity of 36,247,000 bushels.

Miss Kathleen Collins of Pincher Creek, is visiting her friend Miss Gladys Thibadeau for a few days.

Only 11,764,187 acres of land in Alberta are under cultivation, while the province contains 81,300,000 acres of arable lands.

The province of Alberta has 125,456 miles of telephone lines and 40,675 subscribers outside of the cities.

Mr. E. L. Davis of the Bank of Commerce staff at Champion is in town this week visiting his aunt Mrs. J. Davis, 8th Avenue.

Mrs. T. Dawson and daughters who have been in Calgary and Cochrane for the past month, visiting friends, returned home this week.

Fred Service of the Corbin football team had his leg broken in the Coleman-Corbin match last Saturday. He is progressing favorably.

The Cowley public school fair will be held on September 16 a goodly list of prizes is being offered and interest in this event is in-

creasing from year to year.

Mrs. E. H. Joyce and children have returned to town for the winter after a very pleasant holiday on the ranch near Pincher Creek.

It is said T. M. Tweedie, M. P. of West Calgary federal riding will be appointed to one of the new judgeships recently created in Alberta.

The 3-year old son of Mr. and Mrs. Fred Baker was run down and instantly killed by a truck, on Saturday afternoon in Lethbridge.

With a steady demand for grain stookers at \$3 and \$4 per day there are still many would-be harvest hands hanging around Lethbridge, according to the Herald.

A moonshine outfit has just been captured by police six miles west of Staveland. Six gallons of perfectly good whiskey and a quantity of mash ready for brewing comprised part of the layout.

A local company of Medicine Hat capitalists have made arrangements to start boring for oil about 23 miles northwest of that town. Many leases have been filed in the vicinity of the proposed site.

James Bowden an aged pioneer of the Purple Springs district dropped dead from heart failure Monday while leading the singing in the funeral of A. F. Chance another pioneer farmer of his neighborhood.

The carload express limit on apricots etc., from British Columbia, made effective last year at 23,000 pounds has been reduced this season to 20,000 and the rate increased 20 per cent.

Thomas Minton, driver of a car in which John Bargett was killed near Natal B.C. the end of the week, has been held for manslaughter. The car overturned on a narrow grade.

Mrs. Charles Hogg of Lethbridge, wife of the well known football player, dropped dead from heart failure, Monday, while riding in an auto through the streets of Lethbridge.

According to the government garden report for August the province of Alberta has 43,900 acres in potatoes, which is an increase of 900 acres over last year. Owing to lack of moisture in some localities the crop will be about 80 per cent of normal.

Visitors passing through Blairmore this week say that great crowds are now camping at the Waterton Lakes near the International boundary. The roads leading to the lakes are filled with autos and the camping and housing facilities are crowded to the limit.

BORN—In Blairmore to Mr and Mrs. F. J. Novotney, twin boys.

Born—In Blairmore, on August 4th, to Mr. and Mrs. Delbert Knis, a daughter.

Caruso, Galli-Curci, Heifetz
and Other Great Artists

(confirm us when we tell you that only on the

VICTROLA

can you hear them in your home as they are heard on the stage, in the great musical centers.

Come in today and let us show you why?

BLAIRMORE

It's getting to be old fashioned for billiard players and women to keep both feet on the floor. Few slickers attempt to noll gold bricks and green goods any more. They get better results with oil stock.
